I value excellence and strive to support a happy boss, happy customer environment. A safe and productive day is how I like to post out.

When working I don't expect something \$ for nothing and am proud when my efforts exceed expectations. I won't work for a company that doesn't respect my time and money. I require payment for my time spent on shipper and company requests. I like to solve problems and support service. I always put company equipment, fuel and profitability on my daily task list!

Additional Information

- I have enjoyed many challenging and diverse work opportunities. Experience, honesty and respect for site specifics and customer expectations allows me to manage quality service.

I always try to leave the customer and good people involved better off than they were before our service. On time accountability!

I am stable and secure at this point in my life. Good health and fitness.. Blessed with a nice home, (ouch, just sold it to go full OTR) some good friends.and a great rescue dog.

- I am flexible except for compliance efforts. I need to work for a company that will not intentionally or consistently short cut compliance with our D O.T. responsibilities. Stuff happens but we need to work together to maintain compliance.
- Looking to sell my home 2021 and move wherever it makes sense
